

Line detectors

PAN Stromkreisfinder

Circuit finder with RCD test 30 mA + socket tester

- The receiver finds fuses, circuit breakers and RCD switches connected to the socket
- **Test button for 30mA RCD switches**
- Automatic adaptation of the sensitivity of the receiver
- The transmitter connected to an electrical outlet indicates power via LEDs and sends an encoded signal into the power line
- Green and red LEDs indicate whether the outlet is properly wired

Scope of delivery: protective cover, Operating manual, Transmitter and receiver

Technical Data	PAN Stromkreisfinder
Weight (gross / net)	527 / 245 g
Dimensions	191 x 59 x 37 mm
Required battery(s):	9V 6F22
